Bringing the
Natural World
To You

Message from Harris Zia, CEO - Nature's Artifacts Inc.

The journey that we started almost two decades ago has been a successful business venture and continues to grow and expand with every passing year.

2022 was a year of highs for us at Nature's Artifacts. We added more resources to our team, expanded our product range and launched a variety of new products from Zodiac Crystal Kits, Gemstone Oils, Smudge Blends and Smudge Sprays to Incense Diffusers and Soap Dispensers. Our supply network also widened to include new vendors from around the world and this year we are heading back to trade shows in person.

At the start of 2022, we moved our warehouse to a much larger space, which allowed us to introduce more products and improve the availability of existing ones.

Having grown so immensely, a lot has changed for me and my team. But our principles of business still revolve around commitment to procuring the highest quality, ethically sourced materials, based on the fundamentals of fair trade, which allows us to keep the product quality high and prices low.

I would take this opportunity to thank all our loyal customers. Without them, we wouldn't have been where we are today. We will continue to stay committed to serving our customers to their complete satisfaction.

Stay blessed and safe, everyone!

Smudge Blends

Smudging is the traditional spiritual practice of clearing away negative energies and vibrations with the smoke of burning herbs. Our Smudge Blends have been made with a mix of White Sage and different herbs and flowers that work to remove stagnant energies and cleanse one's self, one's surroundings, and crystals based on moon cycles or as a part of self-care routine.

Smudge Sprays

Our Smudge Sprays are a smokeless alternative to burning sage for those times when cleansing of an area is required without the smoky smell. They are a blend of witch hazel, different essential oils and healing crystal. They can easily be sprayed in a space, are great for traveling and ideal for people with smoke allergies who still want to enjoy the benefits and effects of smudging.

Gemstone Pyramids

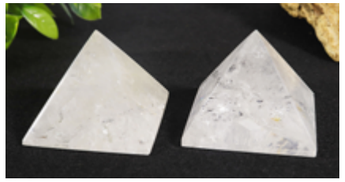

Pyramids amplify and then lightly focus energy through the apex. A crystal pyramid can be used to draw off negative energy and blockage from the chakras. It is also used to enhance and focus on the inherent properties of the gemstone. The pyramid channels energy from its apex to the ground, similar to the healers that channel energies through their hands. With the use of pyramids, a protective space can be created that is vastly effective for meditation and relaxation.

Quartz Crystal Singing Bowls

Chakra Tuned Quartz Crystal Singing Bowls are precisely manufactured from the highest quality (over 99% pure) quartz crystal. Each bowl is hand-tuned to a note of the diatonic musical scale. When played, the bowl resonates ("sings") its particular note, opening and balancing the corresponding energy vortex (Chakra) of the body. The note the bowl is tuned to play determines which Chakra is balanced.

Chakra Set

Each Chakra bowl is packed with a rubber ring holder & suede baton.
The Chakra Set consists of 7 bowls, each in different size, playing different notes. Individually each note has a correspondence with one of the 7 chakras, therefore the name "Chakra Set".
